

# ETHERTECH GLOBAL INDUSTRIES: SUPER HOT ELITE LEGITIMATE LIKES, INC

---

## **Mission Statement**

At Ethertech Global Industries Super Hot Elite Legitimate Likes, INC (EGISHELL, Inc.), our mission is to explore, test, and field-validate tactical and non-tactical equipment in emotionally charged environments—while maintaining the outward appearance of an entirely reasonable and operationally grounded enterprise.

We are committed to:

- Running a completely legitimate business operation, as evidenced by this document.
- Field-validating tactical toggles, illuminated buttons, and RF components under questionable power supplies.
- Publishing reviews through semi-public documentation spaces including, but not limited to, Tumblr and tactical Notion databases.
- Attempting to gain viewers on YouTube

EGISHELL, Inc. is both a shell and a vessel—a hollow corporate structure filled with extremely earnest field data and a deep sense of procedural legitimacy. We exist in a space between tax code and field lore, between the locker room and the SDR waterfall.

Founded by Jack'D, Senior Director of Tactical Receipts and Nonfictional Operations, EGISHSELL is here to \*look real, feel real, and file accordingly.\*

This document constitutes intent to operate as a Sole Proprietor of Maximum Integrity.

Signed,

Jack'D

CEO, Janitor, VP of PowerPoint Vibes
